

Optional Add-Ons

Enhance your CoreLogic[®] MarketLinx[®] MLS System

Consumer MLS Websites

An effective public MLS website delivers real value to your brokers and agents by promoting REALTORS[®] to the public and providing a friendly, consumer-centric real estate portal that is the most comprehensive source for listings.

Document/Transaction/ Fax Manager

Document Manager from CoreLogic MarketLinx is a complete document management solution that is 100% integrated with the MLS. The system enables easy document upload by fax, e-mail or from other systems, variable security levels, document standardization and versioning, document-specific task management, public document Websites, and more.

MLS Data Checker[™]

MLS Data Checker from CoreLogic MarketLinx automatically validates the quality and accuracy of your MLS data against tax data and MLS rules, and then works with your membership management system to enforce the correction of violations and levy fines.

MLS Data Co-op[™]

The MLS Data Co-op from CoreLogic MarketLinx is a simple, cost-effective approach to data sharing that keeps your MLS system at the center of the solution. The system lets you precisely control who can see your data. Best of all, your agent and broker members access the co-op listings through your existing MLS system.

Realist[®]

From the very beginning, Realist from CoreLogic has been the leader in providing robust, feature-driven functionality that enhances the capabilities of multiple listing services. Realist links public record data with any Web-based MLS system for seamless delivery of in-depth property data, market information and street and aerial maps.

RETS Professional

RETS Professional from CoreLogic MarketLinx provides enhanced RETS management and monitoring capabilities including user-level data analysis, IP address filtering, data and image tagging, data quotas and data throttling.

Statistics Professional

Statistics Professional from CoreLogic MarketLinx delivers real-time statistical reporting and charting capabilities for any group of listing search results, making it easy for users to quickly analyze and understand their market.

Benefits

- ▶ Our optional MLS products make it easy and cost effective to provide your MLS staff and members with value-added services.
- ▶ CoreLogic MarketLinx has negotiated group discounts with many technology partners.
- ▶ CoreLogic MarketLinx uses SmartLinx technology that to seamlessly integrate the products with your MLS system.

AnnounceMyListing™

AnnounceMyListing is a powerful solution that uses Web-based social media services to promote real estate listings and introduce agents to their clients' social networks. AnnounceMyListing automatically generates Agent and Seller Listing Announcements that include listing information, photos, contact information, and agent branding.

Imprev Agent Marketing Center™

Imprev's world-class real estate marketing solutions are a terrific value-add you can offer your Members to foster their success. Real estate marketing flyers, postcards, brochures, virtual tours, business cards, and web commercials are just a few of the pieces the Imprev system can help them create.

Property Panorama™

Property Panorama lets agents use their own photos to easily create and distribute virtual tours, video tours, podcast tours and MobileMedia tours for all of their listings. An IDX-compliant tour with aerial photos and maps is automatically added to the listing record, and tours can include an unlimited number of high definition still photos and panoramic images.

RealtyBid.com™

RealtyBid.com from CoreLogic specializes in the expedited sale of real estate through its innovative online bidding platform. RealtyBid.com hosts auctions for many classes of real estate, including residential properties, bank-owned properties, condominiums, commercial assets, luxury properties, and international properties.

SAFEMLS®/ SAFEACCESS™

SAFEMLS and SAFEACCESS from Clarity Security provides you with Strong Authentication to safeguard your valuable data from unauthorized access and misuse use of content.

SafeRent®

SafeRent from CoreLogic provides MLS members with a safe, secure and economical way to screen rental and lease applicants. Its unique tenant score is the only statistically validated score in the industry and the only application to rank order applicants.

Wireless MLS

Wireless MLS lets your members search the MLS for up-to-the-minute property, agent and office information using a variety of popular handheld devices. Wireless MLS lets agents check the hotsheet, view color photos, and e-mail listing reports — anywhere, anytime.
