

# Mobile Search and Edit

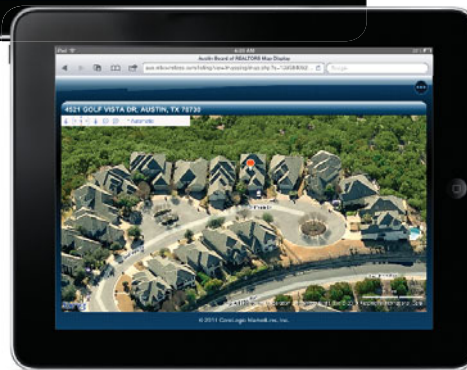

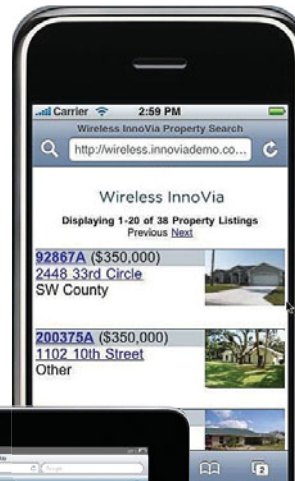

MLS listings anytime, anywhere for your tablet and smartphone

Mobile Search and Edit from CoreLogic<sup>®</sup> MarketLinX<sup>®</sup> allows members to access MLS listings on their web-enabled iPad™ tablets and smart phones that use the Windows<sup>®</sup> Mobile, Apple<sup>®</sup> iPhone<sup>®</sup>, Android™, Palm<sup>®</sup> and BlackBerry<sup>®</sup> operating systems.

Members can use our wireless solution to edit their listings directly from a mobile handheld device. Changing a listing price or status, extending an expiration date, or scheduling an open house on the go has never been easier.

## Features:

- ▶ Automatic device detection that gives iPad<sup>®</sup> users a tablet-optimized interface and smartphone users a compact and smartphone-optimized interface
- ▶ Hotsheet
- ▶ Listing cart
- ▶ Integrated maps
- ▶ Edit your inventory (change price, withdraw listing, close listing, place pending contract, schedule open house, extend listing expiration date, etc.)
- ▶ Access client, agent and office data for important contact information
- ▶ View full color property photos
- ▶ E-mail listing reports to prospects and clients
- ▶ Mortgage calculator
- ▶ Open house quick view

## Benefits

- ▶ Access and edit MLS listings through an iPad tablet and/or mobile phone browser
- ▶ Mobile web application — no downloads required
- ▶ Improve customer satisfaction by providing real-time information on the go
